Telecom agency drafting memorandum circular

By Paolo S. Flores/In

MANILA, Philippines — The National Telecommunications Commission (NTC) is drafting a memorandum circular (MC) to regulate online gaming activities, particularly those involving real money transactions, according to a source familiar with the matter.

The NTC is currently in the process of reviewing the MC, which is expected to be issued in the near future. The MC will outline the rules and regulations for online gaming operators and players, including requirements for licensing, security, and consumer protection.

The NTC is also considering the possibility of imposing a tax on online gaming activities. The source said that the MC will also address the issue of money laundering and the use of online gaming as a means of evading taxes.

Group seeks review of Pangasinan airport plan

By Rappler Staff

MANILA, Philippines — A coalition of local and national groups is calling for a review of the proposed Pangasinan International Airport project. The coalition, led by the Pangasinan Environmental Movement (PEM), says the project will have significant negative impacts on the environment and the local community.

The proposed airport is located in the Pangasinan province, near the town of Urdaneta. The project involves the construction of a new airport terminal, runways, and taxiways. The PEM coalition says that the project will result in the loss of agricultural land, deforestation, and the displacement of local residents.

The coalition is also concerned about the impact of the project on the local economy. They say that the project will create jobs, but these jobs will be temporary and low-paying. They also say that the project will increase the cost of living for local residents.

The PEM coalition is currently lobbying the Department of Transportation (DOTr) to review the project. They are also planning to hold a public hearing on the project in the near future.
